

Controls and compliance checklist

To complete the controls assessment checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each control, including the type and purpose, refer to the [control categories](#) document.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently have this control in place?*

Controls assessment checklist

| Yes | No | Control |
|-------------------------------------|-------------------------------------|---|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Least Privilege |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Disaster recovery plans |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Password policies |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Separation of duties |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Firewall |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Intrusion detection system (IDS) |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Backups |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Antivirus software |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Manual monitoring, maintenance, and intervention for legacy systems |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Encryption |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Password management system |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Locks (offices, storefront, warehouse) |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Closed-circuit television (CCTV) surveillance |

- ☒ ☐ Fire detection/prevention (fire alarm, sprinkler system, etc.)

To complete the compliance checklist, refer to the information provided in the [scope, goals, and risk assessment report](#). For more details about each compliance regulation, review the [controls, frameworks, and compliance](#) reading.

Then, select “yes” or “no” to answer the question: *Does Botium Toys currently adhere to this compliance best practice?*

Compliance checklist

Payment Card Industry Data Security Standard (PCI DSS)

| Yes | No | Best practice |
|--------------------------|-------------------------------------|--|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Only authorized users have access to customers’ credit card information. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Credit card information is stored, accepted, processed, and transmitted internally, in a secure environment. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Implement data encryption procedures to better secure credit card transaction touchpoints and data. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Adopt secure password management policies. |

General Data Protection Regulation (GDPR)

| Yes | No | Best practice |
|-------------------------------------|-------------------------------------|---|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | E.U. customers’ data is kept private/secured. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | There is a plan in place to notify E.U. customers within 72 hours if their data is compromised/there is a breach. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Ensure data is properly classified and inventoried. |

- | | | |
|-------------------------------------|--------------------------|---|
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Enforce privacy policies, procedures, and processes to properly document and maintain data. |
|-------------------------------------|--------------------------|---|

System and Organizations Controls (SOC type 1, SOC type 2)

| Yes | No | Best practice |
|-------------------------------------|-------------------------------------|--|
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | User access policies are established. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Sensitive data (PII/SPII) is confidential/private. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | Data integrity ensures the data is consistent, complete, accurate, and has been validated. |
| <input type="checkbox"/> | <input checked="" type="checkbox"/> | Data is available to individuals authorized to access it. |

This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations:

To strengthen Botium Toys' security posture here are the steps I recommend:

1. **Classifying and Inventorying All Company Assets.** Knowing what devices, data, and systems you have makes it easier to prioritize protections, stay organized, and ensure nothing important gets overlooked.
2. **Implement Least Privilege Access Controls** – Giving employees access only to what they need for their role creates safer workflows and builds trust in your systems.
3. **Establish Separation of Duties** – By dividing responsibilities for key processes like customer data handling or financial approvals, you reduce risk.

4. **Introduce Strong Encryption** – Encrypting sensitive data (both in transit and at rest) will help protect your customers and support compliance with regulations like PCI DSS and GDPR.
5. **Adopt Clear Password Policies and a Password Manager** – These tools make it easier for the team to follow best practices and reduce the burden of remembering secure passwords.
6. **Build and Test a Disaster Recovery Plan** – Having a plan in place ensures you're ready to respond quickly and effectively if anything goes wrong.
7. **Deploy an Intrusion Detection System (IDS)** – An IDS will help you catch unusual activity early and keep your environment safe without relying solely on manual monitoring.
8. **Set Up Regular Maintenance for Legacy Systems** – Older systems still in use can be supported with scheduled check-ins and extra attention until they're ready to be replaced.
9. **Strengthen Physical and Endpoint Security** – Locking down access points, using antivirus, and ensuring surveillance and fire systems are in place rounds out our protection of both digital and physical spaces.

In terms of compliance, these changes will help Botium Toys align with best practices for PCI DSS, GDPR, and SOC 2. Some areas to focus on include encrypting payment data, limiting access to customer information, ensuring timely breach notifications for E.U. customers, and creating documented user access policies.

Taking these steps will reduce risk and create a more secure and supportive environment for the company.
